Assessor Comments	Presenting a complete dispersal of Stecher Ag Commercial Breeding herd. Regretful sale of quiet, fertile breeders that are sound and right. Selling due to a refocus into the cropping side of the business. Cattle have been low maintenance and easy care which was paramount as a large portion of their life has been on agistment in Gippsland and the Monaro. Cattle endured a harsh winter as paddock space was at a premium, now benefiting from harvested crop paddocks cattle have quickly improved and now present in perfect calving condition. Texas and Temania Angus sons were used in joining period. Great opportunity to top up a autumn calving herd with these productive girls. Nice young breeders that can be bought with confidence. 156 breeders across 6 lots in two locations.
