	Drafted in an old set of dairy yards with a concrete floor, I thought they handled really well. The unsettled animals in crush quickly calmed down when back in mob. Video will display this behaviour.

Assessor Comments	Presenting a complete dispersal of Stecher Ag Commercial Breeding herd. Regretful sale of quiet, fertile breeders that are sound and right. Selling due to a refocus into the cropping side of the business. Cattle have been low maintenance and easy care which was paramount as a large portion of their life has been on agistment in Gippsland and the Monaro. Cattle endured a harsh winter as paddock space was at a premium, now benefiting from harvested crop paddocks cattle have quickly improved and now present in perfect calving condition. Texas and Temania Angus sons were used in joining period. Great trading opportunity with these girls given the positive outlook in the cattle market. Calves were sold first week of January weaner sales @ \$1132 average mix sex. 156 breeders across 6 lots in two locations.
