Vendor Comments

Lovely quiet cattle to handle and they are rotationally grazed on the property and the regular movement makes them very quiet in both the yard and the paddock

	Very easy cattle to handle. They have had a lot of exposure to handling and yards with regular rotational grazing patterns and this also makes the cattle quiet. They were through the yards and every heifer just took their turn and stood on the scales. Not one heifer moved on the scales during the whole process. Exceptionally quiet							
Handled With	Bikes , Vehicles , 4 wheel bike							
Assessor Comments	All the Yala Yala cattle are well handled and a pleasure to work. Purchased as the best heifers available specifically to join. A wonderful opportunity to secure quiet cattle to establish an Angus herd or to add to any established herd. Angus bulls in 17/6 and out 24/8 to start expecting calves on or about 26th of March. One heifer has an old pink eye clouded eye that is not detrimental to the animal. One heifer has a white navel.
