Notable Traits	Traits		
	1 Head Freemartin		
Assessor Comments	Buyers a top line of Shorthorn heifer weaners averaging 343kg, offered a/c Royston Shorthorns. These heifers are a very classy and even line! These heifers are bred extremely well, with vendor sourcing genetics from leading Shorthorn studs around Australia. All the hard work has been done, with calves weaned at assessment and being very quiet and easy to handle. They are predominantly large in frame with length and depth of body, as well as plenty of shape, style and softness. These heifers have been removed as unsuitable for breeding, however will continue to develop into well finished medium to heavyweight cattle suitable for all grassfed programs being Greenhams NE acc., JBS FA and NG/NA Note: Vendor has one other line in this sale Note: Vendor is a co-director of Webb and Woodiwiss Livestock Marketing
