Assessor Comments	Good quality crossbred heifers with good frame , great temperament and style suited to carry on to feeder weights, grass fatten or introduce to bulls for a breeding proposition. HGP free. Tidy heads & clean coated heifers. Significant yard time the day before assessment with hot days - the cattle show no signs of ill effect - I would expect to convert on good quality feed - ready to bounce ahead. A small number of the steers mouthed all milk tooth (no heifers mouthed - same age and drop)
