Assessor Comments	A very good quality line of 121Vendor bred Angus and Angus cross Backgrounder heifers that present in good store condition. Heifers stand on good bone along with good confirmation & have all the right attributes to reach their full potential. Heifers are very tidy around the head with the majority being polled. At assessment eight heifers noticed to have slight scaring in one eye, however there doesn't seem to be a problem with vision, also eight heifers with small warts around the head and eyes. Heifers have been enjoying a very good season as the grass hays off it is adding weight gain. This line of Angus and Angus cross heifers will suit any market or retain as future breeders will not disappoint. Please see photos for breed satisfaction. Buyers note vendor has another lot of heifers in same sale.
