Vendor Comments

Steers have done very well in recent months since the change off season and only being sold to make room for other cattle to come home from a drying western QLD paddock.

	These steers flowed and worked through the yards very well for purchased in stock. Some become slightly stirred in the crush during the weighing process but settle again when in the main mob.

Assessor Comments	Buyers here is a line off black coated store conditioned framey steers ready to take onto heavier feeder weights. These steers have done very well since arriving at "Campview" being weaned and educated on arrival to bikes horses and dogs. Steers where back lined and fly tagged on the 4/12/24 so all the hard work has been done for the purchasers convenience. Buyers one steer missing the brush of his tail not seen to be detrimental. Please note same vendor has 3 decks off steers in the same sale.
