Joining Details	Not Station Mated	

Any Access To Bulls or Stags?	Yes, last access to bulls/stags: 03/10/2024		
Joining Access Details	Ran as followers on the cows that were rejoined to Angus bulls up until weaning. Unlikely these would have been cycling due to their weight and age however no guarantees can be given.		
Temperament	Yards	Crush	Paddock
	Quiet: 47 head	Quiet: 44 head Slightly Stirry: 3 head	Temperament not assessed in Paddock
	Heifers were very quiet in all areas of the yards. Approximately 3 head did resent being in the crush but they settled down very quickly once they exited the crush and were back with the main mob.		
Handled With	Bikes		
Notable Traits	Traits 1 Head Blue spot in both eyes (photos attached) 1 Head Blue spot in one eye (photo attached) 4 Head Minor ring worm scars 3 Head Very light wart on head		
Assessor Comments	Buyers, good quality Angus heifers bred from Angus females purchased from the New England area. Present in mainly store to forward store condition and look to be gaining weight on the good quantity/quality feed at their disposal. Bred on lighter country and just starting to clean up in the coat so I would suggest these will fly ahead if they get access to good quality feed or crop on some heavier country. Heifers are very quiet, the vendor's always do an excellent job throughout the weaning process and is reflected in these. They are ideal to background to heavier domestic or feeder weights or be retained as a future breeder for any desired program be it an Angus or a Wagyu job. They possess plenty of length and femininity and don't look to have had any health setbacks at any stage of their life. Cattle from Wongavale are continually attracting repeat buyers, evidence they must perform. Noted 3 eyes all up with a blue spot (photos attached), no sight issues or active pink eye evident.
