Very quiet cattle that handled beautifully in race and crush and stood very calmly in yards. They have been extensively

Handled With	handled with horses and have had some handling with buggies. Bikes , Horses
Notable Traits	Traits 2 Head Blue Eye 6 Head Ringworm 2 Head Warts
Assessor Comments	Buyers here presents a line of very good quality angus and angus cross steers. These steers present in store condition and show plenty of frame to suggest they will preform very well for successful purchaser who takes them out to export weights. These steers have been very well educated in the yards and extensively handled with horses in the paddock. Five of the heaviest steers were mouthed and were all milk tooth showing no sign of wear or spreading in the teeth. Please note two steers with blue eyes were treated at assessment with Benacillin & Dexapan injection, as prescribed by local vets. Of the steers described as having ringworm two are quite heavily covered around face and neck as seen in video.
