Assessor Comments	A quality line of 13 Angus Poll Hereford cross steers to take on and either background for the feeder job or take through to kill weights yourself. Weaners are well grown and mothers have done a great job on them. Treated 3 for pink eye at assessment that was at different stages. If at delivery they are not deemed fit to travel they will not be delivered. All weaners are sired by the Angus bull and out of a Poll Hereford cow. Weaners were very good to work through the yards and will be well weaned by the time delivery comes around. At assessment steers had a weight range of 290-334kg to avg 334.2kg. Good quality weaners you can buy with confidence. Vendor has 13 Heifer sisters in the same sale.
