	For cattle that have only been weaned a few days they handled very well. Only one got agitated in the crush but soon settled when returned to their mates.		
Handled With	Bikes , On foot , Vehicles		
Assessor Comments	A quality line of 13 Angus Poll Hereford cross heifers to take on and either background for the feeder job or take through to kill weights yourself or even retain as future breeders. Weaners are well grown and mothers have done a great job on them. Treated 4 for pink eye at assessment that was at different stages. If at delivery they are not deemed fit to travel they will not be delivered. All weaners are sired by the Angus bull and out of a Poll Hereford cow. Weaners were very good to work through the yards and will be well weaned by the time delivery comes around. At assessment heifers had a weight range of 268-354kg to avg 317kg. Good quality weaners you can buy with confidence. Vendor has 13 steer brothers in the same sale.
