Notable Traits	Traits 2 Head Cloudy Eye/Pink Eye Scarring Not Detrimental 1 Head White markings in front of flanks		
Assessor Comments	A nice line of 53 PTE Angus feeder heifers. These heifers are 17-18 months of age & are Rennylea Angus blood. The "Spring Creek" Angus herd has a record of high marbling cattle, with bulls on the property Averaging +3.5 for IMF, with consideration also given to growth rates while still maintaining a moderate sized mature cow. These heifers are all frame & are in store to forward/store condition, averaging 327kg at assessment. They are ideal heifers to feed either on grass or grain to heavy trade weights for the domestic market. Alternatively with the quality of breeding behind these heifers they are more than deserving of a second chance to the bull of your choice, given the season we had prior to joining these heifers possibly were not mature enough to cycle during the 6 week joining opportunity. buyers please note a second line of 30 heifers also available in this sale.		
Assessor	Zach Weidner (Level 1 Accredited) Phone: 0488 289 137		
Delivery Period	29/01/2025 to 30/01/2025 (2 days)
