The steers were very good to handle. They were hand fed through autumn and winter so are used to humans and vehicles. One steer was a bit stirred up so he removed from the assessment.

Assessor Comments	31 vendor bred Angus steers. They are a March / April drop and were weaned on the 8/1. All weighed from 250kg to 354kg to average 285kg full. They had a very tough start to life though the cows have done a great job and they look pretty fresh. They have been in the yards since weaning and are now in a small holding paddock next to the yards on hay and water. They handled very well through the yards and seem very calm. A tail was removed before assessing. Bred out of big frame Banquet and Western Vic bred cows and sired by Bushy Park bulls who have used a lot of Millamurrah semen.
