Assessor Comments	A good commercial line of trade Angus X Angus cows and calves, huge potential in weaning the calf and fattening cow out to kill. Cows have been doing an excellent job on calves and present with a good frame to fatten into. Calves are growing out well on the good season with a fair portion weanable now, these cows have not been preg tested but have been continually running with bulls and I would expect good return rates in line with the season.
