Assessor Comments	Here presents a good mob of young Angus cross Limousin cows & calves. These cows average 500kg at assessment & have been calved out and not rejoined giving the purchaser the opportunity to match them up with there breeding operation. These young cows were generally good to handle during the assessment with the odd one stirring up once isolated but settled once rejoined with the herd. Calves are in good fresh condition and averaged 111kg at assessment and are sired by Tivoli Angus bulls.
