Notable Traits

Traits

1 Head White strip underneath to the navel

Assessor Comments

A smart line of heifers PTIC to LBW Alpine Angus bulls (EBVs attached). Sold run out the gate as a 15 & 23 head. This line White tag heifers are well grown, medium frame females with good thickness & capacity. Good cattle to assess and handle. These heifers will be an asset to any good herd or a great lift for a producer looking to secure higher end Angus breeding females. A few of these heifers have a splash of white around the underbelly/udder area, one one noted to the navel. Rennylea blood, bred by 'Lerida Station' Gunning, NSW. Highly recommended. On farm inspections available by appointment.
