Vendor Comments	A run of 278 and delivery will be a 'run of the gate' into a 3 deck and 4 deck lot with emphasis placed on an even spread. The first two paddocks at branding were accidently age branded No4's when they should have been stamped with a No5.

Joining Details	Not Station Mated
Any Access To Bulls or Stags?	Yes, last access to bulls/stags: 31/10/2024
Joining Access Details	These were exposed to bulls in a continuously mated herd up until weaning. Unlikely they would have been cycling prior to weaning date due to weight and age but no guarantees can be offered.

Temperament

Yards	Crush	Paddock
Quiet: 120 head Slightly Stirry: 25 head Stirry: 13 head	Quiet: 140 head Slightly Stirry: 18 head	Temperament not assessed in Paddock

These weaners have been weaned since October and most have settled down reasonably well. Still some ring leaders that tend to move rapidly in the bigger yards and they still need to be steadied down through a gateway, not unusual. Nothing in the mob that could be considered aggressive. Would encourage buyers to allow heifers sufficient time to settle down on arrival prior to being shown the 'bush gate'.

47 Head	Ring worm scar

Assessor Comments	Buyers, 4-decks of Consuelo EU ACCREDITED and PCAS ELIGIBLE Santa backgrounder heifers that have developed a great reputation. Have been offered on A+ for the past 10 years and always seem to attract plenty of repeat buyers who have commented on the great performance these heifers deliver them. They have presented mostly in mainly fresh condition and look to be doing very well on the good quality feed in front of them. Please note there is a fair amount of ring worm scarring (estimated about 30%) on them which is clearly visible in the video/photos. It ranges from very minor to a few with a fair amount (photo attached). This is not a health problem more a visual impediment that will in time disappear. They are genetically very sound cattle and would be ideal to put away with a view to selecting the tops for a breeding enterprise and taking the balance to heavier weights for entry into a domestic feedlot. Clean country buyers note they are offered GUARANTEED CLEAR of the dip.
