Assessor Comments	A good line of predominantly Angus X Angus unweaned steers. Averaging 273.6 at assessment, these steers have good growth for age. An ideal line of weaners to grow out onto summer crop or pastures and carry through to a feeder steer weight or to a heavy kill carcass. Assessed on two properties, however, stock will be delivered from one pick-up point. Contact for more details. NOTE: 2 steers assessed have warts, (as seen in photos), 4 steers have white behind the navel. 1 broken baldy steer, (as seen in photos).
