Assessor Comments A good line of Angus X Angus unweaned heifers. Averaging 262.5kg at assessment, these weaners are ready to start growing out onto summer crop or pastures. An ideal line to grow out to feeder heifer weights or carry-on for a kill job. Assessed on two properties, however, weaners will be delivered from one pick-up point. Contact for more details. NOTE: 2 heifers have slight white behind the navel, 1 heifer has slight white on the navel, and 1 heifer assessed has a deformed tail, which doesn't appear to affect her, (see photos).
