Paddock

Extremely good to handle - (especially for their breed). Easy to draft off their brothers, Brought up the race individually and stood well in the crush without a back gate, with almost all of them exiting again at a walk. - a real credit to the vendor on the education that was put in to them at weaning. Easy to walk around in the yards with and get photos, just the odd few heifers that felt more comfortable at the back of the mob, and wanted to rush past during videoing.

Traits

1 Head Small white splash on flank

3 Head Very minor Eye Blemish (Non Detrimental, Small spot equivalent to a rice grain)

Assessor Comments

Very smart line of young fresh F1 Wagyu Heifers. Good growth for age, averaging 310kg at just 9-10 months. These young heifers show a very good influence from their Angus mothers, with plenty of bone, shape & a real softness about them, showing very few physical traits of the typical Wagyu. Glowing in their coats & carrying a healthy fat score, and never taking a backward step since weaning. The Mason family have been producing Wagyu's for over a decade now, and making a name for themselves for always presenting renowned doing calves that are often sourced by repeat purchasers. Note. Please see attached links for sire EBV's. Note. Buyer has another 2 lots in sale. Please see Photos & Video for full contentment.
