Assessor Comments	A lovely line of vendor bred heifers. These heifers have plenty of frame and structure. They are out of true to type, well framed Shorthorn cows. All heifers were yard weaned on the 6th of December and returned to the paddock, they handled the assessment process with ease. At assessment they were 12 hours off feed and averaged 290kg. They show all the traits to make ideal future breeders or ideal to grow out, they have been known to perform on feed in the past. Grass fed & antibiotic free
