Assessor Comments	77 Watervalley Angus Heifers, Ex Bogalara pregnancy tested empty. Ave 392.3kg LW Curfewed. 22-28 months 2022 born heifers. They are in fresh healthy forward condition, fed on hay through a dry season and weighed and drafted out from 300 heifers. Medium mature frames, well suited to grow on into heavier kill weights. They also show a good base of characteristics to go on as breeding heifers. True to Angus type, all mouthed, all having 2 teeth including 4 heifers with milk teeth 1 heifer shows signs in udder of having had a calf Buyers should expect a splash of white in udders and flank. The Watervalley cattle are well known for their doing ability and will perform well for those buyers looking for improver cattle to add value to their purchases.
