	These cows have been handled regularly and flowed well through the yards. The calves from the cows were being held in a holding yard outside the yards while the cows were being assessed. This didn't stress the cows and they all remained calm. A few cows didn't enjoy being mouthed but settled quickly once through the draft.

Notable Traits	Traits 2 Head Blue pink eye scar 1 eye 1 Head white on navel			
Assessor Comments	On offer is a nice line of 3.5-year-old PTIC Angus Cows. These 27 cows are PTIC (with their 3rd calf) to Talooby Angus bulls to commence calving on the 1st of July for 8 weeks. These cows are medium to large frame and are Ben Nevis Angus blood. Cows have recently had their Spring calves weaned off them which are exceptional. The entire drop of calves averaged 282kg. I have included some photos of the calves. Cows have been handled regularly and are very quiet. A great opportunity to purchase young genuine July/August calving cows entering the most productive years of their lives.
