Handled With	Bikes , Dogs , On foot , Vehicles		
Notable Traits	Traits 1 Head Calf with Lump on Neck 2 Head White Udder		
Assessor Comments	24x24 Angus Heifers with CAF. Heifers averaged 507.9 kg and Calves 276kg at assessment. A good quality line of Angus heifers that were purchased early February from the Northern tablelands as PTIC heifers. These Heifers were in calf to a selected low birth weight bull which made calving an enjoyable process. All have been running on improved and native pasture country which photos will display the cracking job they are doing on their calves. All calves have been marked and vaccinated. On this particular property there are no bulls and have not had the opportunity and would be ready for the bull of your choice. A great opportunity to put a decent line of young females together with the hard work done and their whole life ahead.		
Assessor	Jake Grace (Level 1 Accredited)		
Delivery Period	03/02/2025 to 07/02/2025 (5 days)
