	These cows were responsive to pressure. They were settled on the scales with only one being slightly unsettled. They

Handled With	flowed through the yards well. They were settled for the video (see attached) and have had ample handling. Bikes , Vehicles	
Notable Traits	Traits 2 Head White markings on udder.	
Assessor Comments	Offering the winter calving group off Barrabooka due to the sale of the property. The Barrabooka herd was originally developed on Tuwharetoa Angus (Tarcutta) genetics before transitioning to Hazeldean Angus approx 10 years ago. Generally large framed, big boned, deep bodied cows with presence. There is the odd shorter legged cow in this line but they are still carrying weight. These cows are from the heart of the herd PTIC to Hazeldean Q530 for a winter calving. They were joined for 44 days. All cows were mouthed and there is one head missing one wing tooth with balance being firm and sound. None are showing signs of spreading and are still offering a few more calves yet. Their unweaned calves are being offered in today's sale also. Coordinating delivery will be appreciated. Please note their calves and the autumn drop weaners are also being offered in today's weaner sale.	
Assessor	Henry Booth (Level 1 Accredited) Phone: 0428 375 816	
Delivery Period	01/02/2025 to 07/02/2025 (7 days)
