	Cows had only been preg tested an hour before assessment so had a little more run in them than usual when working through the yards. Odd cow was a little agitated on the scales but settled once back in with the mob.								
Handled With	Bikes , On foot , Vehicles								
Assessor Comments	Structurally sound, roomy, productive & profitable PTIC females that are in the prime of their breeding lives and are only being sold as the vendor is dispersing his Autumn calvers due to ongoing dry seasonal conditions. Preg Tested in Calf to a \$30,000 Bowmont Bull these cows had 9-10 month old weaners pulled off them in early December with the Steer portion averaging 347kg in a tough year and selling for \$1,470/head 2 weeks ago. Around 50% of the draft have some white on the udders & underneath but none forward of the navel. 2 Cows were noted with a very slight blue eye but still had full sight. Cows present in fantastic condition with neat, tidy udders and should be an asset to any Angus herd.
