Assessor Comments	An even line of mixed sex bare shorn composite store lambs that have been running on on short clover based pastures now since shearing pre Christmas. Lambs present in forward condition and have come out of the wool quite well and have all up to health treatments. Please note in a tight somewhat failed spring in Western VIC the Boonerah lambs have continued to put on weight the whole way through, and are continuing that trend, no issues these making it to kill weights. These are the tops of the offering there is also 485 seconds in the same sale.
