Assessor Comments	Presenting the complete drop with a 5% tail removed. Lambs are in fresh forward condition and will continue to grow out given the opportunity on good feed. Bred from a large frame self replacing flock these lambs would suit to fatten for export markets or run on as woolcutters. Noted small portion of lambs carrying green dags from fresh feed. Majority carry normal wether horn with 1% having thick horn. Great opportunity to secure a line of vendor bred lambs.
