Vendor Comments	Annual sale of Merino lambs			
Assessor Comments	Offering 530 Merino Wether lambs. The Graham Family have been breeding Merino sheep for 50 plus years focusing on a large framed, heavy cutting sheep that produce bright white wool averaging 20-21 micron with their flock averaging 7.8kg for the 2024 season. The Grahams have invested heavily into genetics with bloodlines based off Wanganella and Poll Boonoke. Lambs carry plenty of frame and have been trail fed barley for the past 6 weeks and average 40kg with no lambs under 35kg at assessment making these lambs the ideal article to feed on to export weight under the right conditions. With the breeding these lambs have they would easily turn into bale fillers for wool producers . Odd lambs has horn. Vendor will be offering 360 wooly merino lambs in this sale
