Assessor Comments	An excellent group of 185 x Aug/ Sep 2024 Drop 2nd Cross Lambs. Lambs weighed out between 33 to 43kg with an overnight curfew. The lambs were shorn in December and weaned at assessment. All lambs in this group are in excellent health and shape and will perform really well given the opportunity. A selection of lambs exhibit composite traits as the vendor runs composite ewes alongside their first cross ewes. Approx 20 lambs would be by Poll Dorset sires out of Composite ewes. Note: Lambs weaned at assessment, weight gain has not been added to lambs between assessment and delivery. Buyers note that lambs may show a little less bloom than in media due to weaning.
