Assessor Comments	800 store lambs all weight 36kg -46kg to average 40kg full. Cashmore Oaklea maternal wth lambs with 125 Dorset cross lambs mixed in to make numbers up. Weaned in late Sep and shorn in late Nov. They are currently receiving 500/g of barley 7 days per week. They have plenty of frame and stretch for maternal lambs and seem ideal lambs to enter a feedlot. The plan was to carry them through to trade weights however given the very dry season they are to be sold now. Very well bred lambs with great genetics behind them.
