Assessor Comments	A very good quality line of 4.5 year old, Egelabra blood ewes from a flock with 75 years of carefully selected genetics from high grade Egelabra sires. This flock has been classed annually by Egelabra's chief sheep classer, with a focus on wool quality, and production. THESE WELL GROWN EWES HAVE BEEN CLASSED, AND ARE ONLY BEING OFFERED DUE TO THE PROPERTY BEING SOLD. The 2.5 year old ewes may have been exposed to some strays, no rams. Their origin and health status is unknown. The vendor has chosen to backline his entire flock as a precaution. These Large to medium framed ewes are carrying a 60mm fleece, are not station mated, and would be an excellent addition to any enterprise.
