Traits											
2 Head	brown marking										
Assessor Comments	A handy line of White Dorper Ewes SIL to White Dorper Rams, a change in operation has resulted in all breeding ewes been offered up for sale. These ewes are carrying very good body weight and get scanned each year and do a top job on their lambs. Some purchased in ewes still have a tail in tacked -out of 100 head assessed 61 red tags, 39 yellow tags (Majority of red tags are vendor bred ewes) - Yellow tag ewes carry a green management tag (the yellow tags have been breaking falling out of ewes, so tags were put in for identification) (Any ewes missing a tag will be tagged with a red tag)
