Assessor Comments	160 1.5 year old composite ewes weighing between 48kg - 69kg to average 58kg. These are the tops of the 1.5 years olds. A large tail was removed prior to assessing. Teaser rams were in for 10 days and removed at assessment. No ewes are being retained. There are a few ewes with black markings on their faces (see photos). They have a fair bit of leg under them, which could be the white suffolk in them, it looks like they will turn into big ewes once fully grown. They have not had a lamb.
