Temperament	Yards	Crush
		Paddock

Quiet: 15 head
Slightly Stirry: 2 head

Quiet: 13 head
Slightly Stirry: 4 head

Quiet: 17 head

The majority of these Heifers handled well through the yards when drafting into their groups for assessment. The odd heifer became unsettled in the race when weighing. Knowla cattle are generally always mustered by Stockman on Horseback with dogs. Please take into account that these Heifers are weaners and are still a work in progress with handling.

Handled With

Dogs , Horses , On foot

Notable Traits

Traits

2 Head Old pink eye scarring
1 Head Ringworm
1 Head vaccination lump
1 Head White markings on udder.

Assessor Comments

Buyers, a great opportunity to purchase a line of pure EU Angus Heifers. The Knowla herd have well over 25 years of breeding behind them. These young heifers represent some of the bloodlines that have recently been used, both in the stud and commercial herds. These heifers would suit a buyer looking to start a quality herd of Angus females or could be a great asset to any existing commercial herd. This is the second draft of the younger age heifers showing very good weight and growth for age. Ideal future breeders. The Odd Heifer presents with an old pink eye scar, considered not detrimental. These are in the youngest management group of the heifers. These Heifers worked well through the assessment process. Buyers, please note the odd heifer became expectantly nervous whilst under force but returned comfortably and non-agitated back to the mob.
