Handled With	Steer's were very easy to handle through the yards with only 6 being slightly stirry in the crush. Dogs , Horses , Vehicles			
Assessor Comments	61 EU Angus Steers, Quality western district bred. Weighing 283kg at time of assessment. The Tait family have been breeding cattle for over 45 years, with these cattle being among the top calves they have produced. They have been weaned for 5 weeks and fed pasture hay. With plenty of length, depth and softness, these calves would be a stand out among any cattle in the country. They are a real credit to the vendors. Please note that 2 shots of Bovilis MH+IBR have been administered. Grass fed antibiotic free, PCAS non- certified supplier declaration form available.
