Assessor Comments	53 EU Angus Heifers, Quality Western District bred. Weighing 274kg at time of assessment. The Tait family have been breeding cattle for over 45 years, with these cattle being among the top calves they have produced. They have been weaned for 5 weeks and fed pasture hay. With plenty of length, depth and softness, these calves would be a stand out among any cattle in the country. They are a real credit to the vendors. Please note that 2 shots of Bovilis MH+IBR have been administered. Grass fed antibiotic free, PCAS non- certified supplier declaration form available.
