Assessor Comments	On offer is a nice line of 300 shorn Composite & White Suffolk X Feeder lambs that are July/August drop. Out of the 300 lambs 15 head have a slightly longer pelt being shorn earlier whilst the balance were shorn on the 10/1. Lambs were weighed between 36-51kgs LW to average 41.6kgs at delivery. Lambs were visually drafted before weighing so any bad types were taken out. They have been running on wheaten stubble so they should transition onto grain with a lot more ease. This article are showing good frame and growth for their age and will continue to put on the weight given the opportunity as past buyers have been happy with their performance. For any more information please call assessor.
