| Other Health Information     | LAMBS WERE MARKED ON THE 10th OCTOBER                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |            |                    |            |
| Vendor Comments              | WOULD NORMALLY GROW OUT TO KILL WEIGHTS. BUT SEASON HAS FAILED TO FIRE.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |            |                    |            |
| Any Access To Rams or Stags? | To vendor's best knowledge, the female portion of this lot has had no access to rams or stags.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |            |                    |            |
| Assessor Comments            | A GREAT OPPORTUNITY EXISTS HERE DUE TO THE DRY SEASONAL CONDITIONS TO PURCHASE A VERY WELL BRED LINE OF MIXED SEX HIGH PERFORMING LAMBS. BAYMORE HAVE BEEN SOURCING BURRAWANG & DUST N RAIN GENETICS FOR MANY YEARS OUT OF THE SALES. BAYMORE LAMBS ARE GENERALLY GROWN OUT FOR THE TRADE AS THEY ARE WELL BONED WITH PLENTY OF MUSCLE & GOOD CARCASS TRAITS. THERE WAS APPROX 40% EWE LAMBS IN THE SAMPLE WEIGHED, WHICH PRESENTS GOOD OPPORTUNITY TO GROW OUT THE EWE LAMBS AS FUTURE BREEDERS. THE LAMBS HAVE BEEN PUT TOGETHER OVER THE PAST FEW DAYS FROM VARIOUS PADDOCKS & WEANED OFF THEIR MOTHERS JUST PRIOR TO ASSESSMENT. DUE TO THE VERY HOT WEATHER & WEANING THESE LAMBS MAY POSSIBLY LOOSE SOME MORE COVER. THEY WILL BE HELD IN HOLDING YARDS ON GOOD VETCH HAY & TROUGH WATER SO SHOULD KEEP THEM IN GOOD STEAD. NOTE THERE WERE 2 EWE LAMBS THAT CAME THROUGH THE SAMPLE THAT HAD TAILS. |            |                    |            |
