Assessor Comments	800 Top Feeder Lambs! - July/August 2024 drop - Shorn 16th December - These White Suffolk/Composite X lambs have the ability to reach trade or export weights in a short amount of time given the exceptional genetic base & ram power behind them! Lambs were weaned mid October, at weaning they received their second 6 in 1. More recently given Cydectin SE drench on 16/12/24. Lambs have been running on a summer crop since the 20th of December. The 'Coolibah' lambs in past years have had no trouble reaching trade and export weights but due to the tough seasonal conditions are on offer! These lambs come with our highest recommendation!!
