JD Approved Vaccinates	Sheep are JD Approved Vaccinates. Vendor has been continuously vaccinating all retained lambs in the flock for 13 years
Vendor Comments	These ewe lambs are surplus to my requirements. They are bred out of commercial ewes by stud rams. More information can be found on my website; www.lowfootprintlamb.com.au
Joining Details	Not Station Mated
Any Access To Rams or Stags?	To vendor's best knowledge, this lot has had no access to rams or stags.
Assessor Comments	At 'Low Footprint Lamb' the aim is to breed robust, easy-care sheep, producing lambs with good carcass shape, cover and finish at a wide range of weights (14kg-25kg carcass). These sheep are selected to shed clean most years, eliminating all costs and risks associated with wool growth and management. They must be highly fertile, conceiving at 6 to 8 months of age and successfully rearing lambs, to remain in the flock. They are selected for positive genetic muscle and fat – these body reserves are 'doing ability' which reduces feed costs, improves survival, adds to carcass value and increases marketing options. They are worm resistant and resilient and can survive and produce in high rainfall zones, with just one or two drenches a year. Foot rot resistance is achieved through a strong focus on structure and selection of animals with the ability to develop immunity.** Please contact Robert Claffey on 0418625839 for all enquires & delivery.
Assessor	Zac Van Wegen (Level 2 Accredited)
Delivery Period	05/02/2025 to 12/02/2025 (8 days)
Delivery Point	15km East of Hamilton Lat: -37.775622" S Long: 142.2389344" E
