Assessor Comments	*Future Breeders - Surplus Ewe Lambs* Acc: Nicolai Farms 383 x tops of the surplus ewe lambs that's present in store to forward condition with a 45mm skin, only weeks from combing length. They are 100% bred by Kelvale Poll Merino out of 50% Large Frame Mallee Ewes & 50% Watervalley Ewes. The Kelvale influence is to target good combing length for a 6 month shearing while keeping the weight in the wool, good confirmation & fertility. The lambs were drench for the buyers convenience on Thursday 30th January with Q-Drench having a 28 ESI. A great opportunity to secure future breeders that will have a rebate within weeks. Please note there is a handful of lambs that have a high crutch or short skins after being treated for flies.
