Any Access To Rams or Stags?	To vendor's best knowledge, the female portion of this lot has had no access to rams or stags.			
Assessor Comments	Bred from medium to large framed Dorper ewes originally from the West Coast of South Australia, these lambs should perform well in different climates/types of country. Crossed with locally bred Stud Rams descending from top of the catalogue Tattykeel bloodlines, these lambs have continued to excel with strong performing growth rates in a less than ideal season. Still on good dry paddock feed and daily ration of 500g beans and oat mix since late November. Will suite feedlotters or those looking to finish lambs on stubbles.
