Assessor Comments	These Vendor bred store XB store lambs are ideal feeder lambs, they are starting to dry off in the tip and would respond immediately to being shorn and put onto a good feeding regime. Being late June drop, they are ideal lambs to fatten for the autumn / winter lamb markets. They have come off standing lupin crop and cereal stubbles and are currently locked up on cereal hay and lupins in confinement since assessment until delivery. These lambs are well bred, and well set up to fatten. Individually all weighed thru auto drafter 35-52kg
