Assessor Comments	Classed in breeders for sale These ewes are a real credit to the breed,they are large frame and growing a lot of wool ,when also just weaning a lamb prior to Christmas. 70mm on avg wool length (may shearing). First scanning to weaning was 110% GUDAIR vaccinated and have had all the health treatments you need. I couldn't recommend these ewes any more. 2200 head in 4 lots in this from this property also another 1600 in 4 lots from the vendors canowindra property.
