Only just had big lambs weaned off at assessment. They are all very healthy and in good condition for transport.

Assessor Comments	A good sound line of 5 year old 1st cross ewes. December shearing, Not station mated. Ewes have consistently marked 120-130 % lambs year in year out. They are strong medium frame, and we have just weaned lambs off at assessment, so they will start to freshen up and put on weight fast over the next few weeks. I believe they would be ready to join Asap. Vendor is getting out of sheep to focus on cattle. Good honest sheep, if looked after they could make a good trade. Realistic reserve.
