Notable Traits	Traits 3 Head Scur		
Assessor Comments	This line of ewes, are a lovely run of Anderson Poll Merino Genetics. These ewes are the tops of the drop, with a 25% of the tail removed. 'Woodacres' have been using the Anderson bloodline for 5 years and have had a focus on Wool, Fertility and Lamb survival. The Anderson sires have some of the highest worm resistance in Australia and they focus on eye muscle, fat and growth whilst maintaining wool cut and quality. The 'Woodacres' ewe flock consistently mark over 120% lambing and the mature flock averages 18 micron. These Dual-purpose ewes are ideal to join to a merino or have ability to produce outstanding heavy lambs under a terminal system. A rare opportunity to purchase, as the only reason for sale is the loss of a block and overall numbers need reducing. These spring drop ewes will join up well displaying good growth and maturity. Buy Now Pay Later 3-month terms available. 790 in this line offered as 3 x 265 on a run out the gate basis.
