Assessor Comments	A good quality line of approx 42 straight Angus with approx 14 Angus/Senepol & Angus Hereford X heifers, 8 to 16 months, 290 to 410 kgs to avg 343 kgs (17 HOURS OFF FEED). An obvious tail including anything that was lacking muscle or condition has been removed. The mob includes two broken baldy heifers, obvious past on genetics from Hereford x herd cows some years ago. All the heifers are very easy to handle both in the yards and paddock. They are fresh in the coat and going ahead well in condition. This is a fantastic opportunity to buy good quality Chesterfield replacement heifers! Equally suited as short term feeder heifers, to the vendors best knowledge there has been no access to bulls. (Agent is happy to scan tags for buyer at no cost if required).
