Assessor Comments	A great draft of Angus x Angus steers to continue on with, Steers are grain and antibiotic free and vendor bred. Steers display a lot of growth and frame for their age and should do well on good quality feed. They have weaned down nicely and are ready to background out to MSA markets or feedlot entry weights. Steers have good confirmation and have had a small tail removed from the line. Steers are by Greswick Angus bulls and out of very well bred Angus cows ex the central tablelands. Clear of all detriments, buy with confidence. LWR at assessment 287 - 387kg to avg 329kg.
