These weaners receive ample human interaction from birth. They are a pleasure to handle responding perfectly to pressure

Handled With	and release. They handled assessment well and will have completed a full yard weaning at delivery. Aerial (Helicopters, gyro's and planes) , Bikes , Vehicles
Notable Traits	Traits 1 Head Weepy eye due to dust. Has not developed into anything at assessment.
Assessor Comments	Annual offering of the MI and BJ Booth angus weaners. Scotts Angus blood with a big emphasis placed on temperament. Evident in their behaviour being settled in the yards and content with human interaction. These weaners have had great start to life with the season only recently starting to run out. They have been running on renowned top quality heavy clay country that has benefitted from flood waters in 2024. They are well grown for age (216-299kg to average 275kg) and representing the seconds (younger) of the drop and offering immediate compensatory gains.They have been yard weaned for 8 days on clover based hay. Given conditions the odd weepy eye is expected at delivery. If any appear detrimental they won't be delivered, currently they are holding up very well. Often sold at feeder weights but have the ability to grow out to bullocks. 100% grass fed and antibiotic free. Vendor is offering 72 sisters in today's sale.
Assessor	Henry Booth (Level 1 Accredited) Phone: 0428 375 816
